OBJECTIVE

As a curious and passionate Computer Engineering graduate, seeking a Junior Computer Engineer role at a pioneering tech firm. with aim to apply my technical skills and problem-solving passion to drive innovation, collaborate with talented teams, and deliver impactful solutions that merge logic with creativity.

EDUCATION

Birla Vishwakarma Mahavidyalaya Engineering College, Anand <i>B. Tech. in Computer Engineering</i>	2021 – 2025 <i>CPI: 8.74</i>
P.P. Savani CFE school, Surat <i>Science Stream, GSEB</i>	2019 – 2021 92%
Saraswati Vidyalaya, Surat <i>GSEB</i>	2019 90%

TECHNICAL SKILLS AND INTERESTS

Languages: Java, C, C++, PostgreSQL, MySQL, JavaScript(Familiar), C#, Python, R(Familiar), Unity

Soft Skills: Good Communicator, Adaptability, Teamwork, Management

Field of Interest: Database Management, Backend Development, Game Development, AI/ML

Libraries & Tools: NumPy, Pandas, Matplotlib(Basics), Tensorflow

EXPERIENCE

Invints Infotech LLP <i>Intern</i>	Surat, Gujarat May 2023 – June 2023
•Learnt Game Development basics in Unity and C# •Created a fully functional UI of a cricket game the company was working on and two 2D games for practice.	
TatvaSoft <i>Intern</i>	Online May 2024 -- June 2024
•Gained insight about .NET Framework for backend and AngularJS for frontend. •Developed Virtual Community Support	

PROJECTS

Sign Language Translator <i>Python, OpenAi's API</i>	July 2024 – Present
•A translator which is trained on machine learning concepts, and uses computer vision to translate real time static and dynamic signs through machine camera. •Current Work: Scaling the model to work on big dataset.	
Database for OTT Platform <i>PgAdmin, PostgreSQL</i>	October 2023
•Designed a database for an OTT platform, incorporating SQL basics and RDBMS concepts.	
Projectile Game <i>Unity, C#</i>	July 2023
•Developed a projectile game in which user have to shoot at the enemies and different structures. •Created different modes and levels and a fully functional UI menu with sound effects and animations.
